

Effective for the 2018 Spring season, the FSL Footies training package will look a little different. Based on feedback from our community, and in an effort to better serve all of our players at the highest level, Footies players will not be placed on rosters separate from non-Footies players. It is vital that all players within the soccer community are able to excel and be challenged in an age appropriate way.

The extra fee associated with the Footies training package, offered to any U7 and U8 FSL player who seeks an advanced training environment, now covers the following:

1. Professional training from licensed coaches one day a week
2. Training with volunteer coach one day a week
3. FSL games as scheduled
4. Referee fees for two playdates with other Footies players (one at Fairhope Soccer Complex and one elsewhere) against neighboring soccer association players.
5. Post-season competitive tournament with other Footies players if demand is high enough

This is a first-come, first-serve training program. We have open spots for 25 Boy & Girls players in each age group. The additional fee is \$60.

We continue to be proud of this developmental program as we enter our third year of implementation. We believe this minor alteration of the training / playing structure will serve our FSL players in an enhanced way and continue to strengthen our growing soccer community! Please do not hesitate to ask any questions that you may have.

See you at the fields!

Josh Montgomery, FSC Development Director & Footies Coordinator
